

What I like	To make it perfect
Very good speaker (calm, clear) Great topic People were listening & interested	More time More practical exercises
Lots of knowledge Practice & discussion	Focus on one subject, only story striptease
Exercise	Dedicate full session to Agile striptease
Great presenter & interaction	More attention Agile striptease
Relaxed way of talking Very thorough	Stick to your original subject! Talk less (1/2 hour) and give more time to workshop
Different PO parts	Less time on overall explanation of tools, more time for group to work on one tool and discussion afterwards
Very good talk! Inspiring	Bit too short. Might span over two slots
Respect. Very well presented	
Interactive, hands-on discussions	Keep improving like that 😊
Well paced presentation with lots of time for questions and elaboration Double checking understanding by the audience, mindful of overlap with other PO sessions Some of the practices shown were new to me	Give guide (visual) examples of the practices instead of the bulleted list - > recognise value and less need to elaborate Allocate a few more minutes for the group exercise Quickly hold the “story striptease” presentation for everyone
PO toolkit was interesting	Should have made the whole session on Agile striptease
Nice interactive workshop	The original presentation was also interesting I think
More insight in the whole process New terminology Share with others	Concrete samples and how/when to use
Both form and subject were great: useful, clear, complete, brilliant	Sorry, but I cannot figure it out
Very nice, the confirmation questions: “Do I understand you”	Divide in equal groups approximately Discuss about the results Present the real: Agile striptease!
