I like your sympathetic style of presentation!! I felt the passion and conviction you've gained from your burned down house (your crisis)!! Discussion about the NoNos, discussion with the audience in general	I'm not sure if the titles of the book chapters are the best skeleton for your presentation. It's just an impulse and idea...
Great metaphor Inspiring and thought provoking	A more interactive format, with more participation, has IMO great potential of engaging the people
Interaction with the attendance Very insightful, knowledge sharing
