

What I like	To make it perfect
Gives a great intro about Scrum!	It'll never be perfect!
Good presentation Clear and easy to follow Also very good that you provide us the documents (presentation)	
Informative, structured Ability to ask questions	
Basics of Scrum well explained	
Interactivity; recap basics	Drawing on the flipchart could have been more clear; 3d on the screen for example was easier to read
Interactive Basics were covered!	More examples from real life
Very good build-up, interactive Very understandable Very well coped with change (unexpected questions)	?
Learned a lot in a short time Very good presentation	
Basic Scrum principles in a nutshell	
Clear! Love it.	1 example (short)of the artifacts
Good team work Good introduction Working on flipchart, trying to explain it interactively	Align drawing on flipchart and what you show on PPT
It showed in a very comprehensive way the highlights of Scrum	Try to introduce a little exercise to improve interactivity
